

William F. Bertels

Field Technician

Mr. Bertels joined Sonoma Technology in 2021. His responsibilities include performing routine maintenance, emergency repairs, and data collection for air quality and meteorological equipment at various refineries and community sites in southern California.

Before joining Sonoma Technology, Mr. Bertels worked as a Lab Analyst for Unitech Scientific in southern California, where he performed preventative maintenance, made repairs, and performance-checked various chemistry lab equipment. He also quality checked the enzymatic activity of various reagents for a wide line of enzymatic test kits used in winery laboratories. He also assisted in data analysis, over-the-phone troubleshooting, and customer support for the instruments at wineries all over the country. Mr. Bertels graduated from Minnesota State University, Mankato, with a BS Degree in Bio-Medical Science and a Minor in Chemistry.
