

Megan K. Schill

Technical Writer

Ms. Schill joined Sonoma Technology in 2021 and writes content for proposals, authors thought leadership articles, and creates other technical content. As a part of the Publications Group, she edits and formats technical documents, scientific articles, and scientific reports to ensure that all documents Sonoma Technology delivers are easy to understand, meet high grammar and organizational standards, and are accessible to all potential readers. She also provides photography for company projects and events and is experienced in using the Microsoft Office Suite, Adobe Acrobat, InDesign, Photoshop, and Endnote.

Before joining Sonoma Technology, Ms. Schill wrote articles, white pages, press releases, and blogs; managed social media campaigns for multiple companies; and worked as a photo editor and photographer at *The Columbia Missourian*. She worked as a freelance content creator for a number of companies, including a television advertising company, an online money transfer platform in Canada, and a publishing company. She also oversaw photography and videography for NASA Airborne Science's Student Airborne Research Program (SARP) for three years.

Ms. Schill graduated from the University of Missouri, Columbia, School of Journalism *cum laude* with a Bachelor of Journalism and an emphasis in Photojournalism. While there, she became involved in the student paper, *The Maneater*, and the lifestyle magazine, *Vox Magazine*. She was also involved in helping to organize the Photographer of the Year awards and the College Photographer of the Year awards, international photojournalism competitions that are hosted at the University every year.

Education

- Bachelor of Journalism, University of Missouri
